- Enterprise Networks
- Wireless
- Data Center
- Cloud
- Internet of Things

Services

- Managed Services
 - Managed Detection & Response (MDR)
 - Managed Security Services
 - Managed Collaboration Services
 - Managed Infrastructure Services
- Customer Success & Lifecycle Services
- Solution Design & Implementation
- Business Architectures & Transformation Services

Transforming Education in an Age of Disruption

INNOVATE SOLUTIONS TO BRING YOUR SCHOOL'S VISION TO LIFE

Aspire Technology Partners brings over fifteen years of experience and expertise in supporting educational transformations while being technology agnostic. This puts the needs of the organization first, enabling the solutions-build around what works best for the education stakeholders. Our domain expertise and ability to mindfully consult about the outcomes the institution seeks enables us to deliver the desired results.

Traditional education is transforming.

In this era of disruptions, education institutions require not only the ability to adapt quickly to the changing times to stay relevant, but, more so, they must find innovative ways to attract, engage, educate, and retain students by securely enriching their educational experience on-campus and in a virtual setting.

It begins with focus.

We know the education market; we are familiar with the issues facing the different segments, we understand the approval process, we live and abide by existing contracts and are guided by the strict regulations surrounding the conduct of business. Our focus on servicing our customers' needs, combined with our institutional knowledge, and deep know-how of the technology architectures, differentiates Aspire from the rest.

Our transformational framework utilizes a proven, repeatable outcome-driven methodology that empowers education IT leaders to define and manage critical technology changes and helps them achieve the strategic objectives necessary to transform education.

RECENT EDUCATIONAL IMPLEMENTATIONS INCLUDE:

- Aspire empowered Data Management in the Cloud for a local community college to securely access resources anytime.
- Aspire enabled a business school to transition 650 courses online providing secure and seamless access to instructions and resources from anywhere.
- Aspire partnered with a career specialized college to leverage wireless solutions to support contact tracing on school premises.

WE ARE ASPIRE

We are bound by the values of integrity, respect, and dedication. We gain strength from working together toward a common goal, focused and driven by the passion of enabling others to succeed. We rise to the commitment of delivering excellence in the continuous pursuit of a customer-first, relationship-driven standard in everything we do. We are relentless in preserving our reputation and stand firm on ideals and principles that push us to become contributors to the broader community.

The Aspire Solution Approach is an end-to-end process that aligns the unique education initiatives of our customers with custom-designed solutions scaled to the organization's capabilities and includes planning, implementation, and solution management services.

Whether the technology requirement is completely on-campus, cloud-based or hybrid cloud configuration, Aspire designs, implements, and deploys secure solutions on-time and on-budget.

Recent deployments include:

- Data Protection to ensure information is stored and accessed securely with an agile back-up system.
- Secure yet easy access to resources for a seamless onsite or remote learning and teaching experience.
- Immersive classrooms so that both in classroom students and remote learners have the same rich educational experience.
- Learning Networks that enable enhanced curriculum development, student digital portfolios and access to essential resources.
- Redesigning existing campus safety systems for a more secure and safe learning and teaching environment.
- Enhancing cybersecurity to protect essential IT systems as well as student safety.

Aspire Managed Services are comprised of an experienced team providing day-to-day operational support, technical expertise, and 24/7 monitoring to ensure the availability, performance, and security of your critical education assets.

Aspire's Customer Success and Lifecycle Management practice provides a unique value-add, to ensure that you achieve your defined outcomes and maximize the value of your IT investment.
